The text of the Eliza John Diary found in this document was scanned from a copy of the typewritten text transcribed by Marijane John Zerphey. The scanned file was then analyzed with optical character recognition (OCR) software to produce this text document. The copy scanned was not of the highest quality, so much editing was done after the computer finished its task. To the best of my ability, this is an accurate reproduction of Marijane's hard work. As she described it, the text is very nearly an exact copy of Helen Doub's transcription of the original document. Therefore, misspellings and other errors that appear are most likely attributable to Eliza John herself

INTRODUCTION

Historians Have ever been grateful to the Quakers, or Society of Friends, for the wonderful records kept by them of all events which in any way effected their membership. The careful recording of vital statistics is of comparatively recent date, and many times the old Quaker Meeting minutes were the only written records available. Not only were these Friends careful to put in writing all this valuable information; they saw to it that their records were protected and preserved, to serve for years as a rich source of material for Historians and Research workers.

In our search for Family History, we were given valuable assistance by practically every member of the John family contacted, and in the course of years, amassed a great deal of material. However, it was not until the remarkable Diary of Eliza John came to us that we were able to make a really great addition to the story. The first manuscript of the Diary came to us in 1947. After working at the transcription for about one year, we considered our job complete. Much was missing, but we believed the loose papers had been lost, never to return. Work was then begun on the index, and hundreds of names, with the pages on which they

appeared, were entered. At this time we received by mail a large bundle of manuscript which had just come to light. This, of course, meant that practically one year's work had to be revised and rewritten, but after the first shock had passed, we gave ourselves up entirely to the joy of finding almost all of the Diary. Many of the largest gaps in time were now filled, and as the transcribed Diary stands today, there are very few pages missing. The manuscript, now in the Historical Collections of the John Family, is the gift of Mr. J. Omar (Mary John) Heritage, of Mullica Hill, New Jersey, and to her goes the credit for one of the finest contributions made to the collection.

Eliza John was the twelfth of the thirteen children born to Abia John and his wife, Martha John. She was born May 29, 1812. Being a true Quaker, she most likely kept early records of her life, but the manuscript book which is transcribed in the following pages, began on June 25, 1819, and continued until less than one month before her early death on December 20, 1863.

Although her parents, being first cousins, had been disowned by the Meeting at Uwchlan, they continued throughout their lives to live in strict accord with the discipline of the Society of Friends, and all their children were reared under this code. Abia John was a strict disciplinarian, which is evidenced by family letters. He often refused financial aid to his sons, in order to develop with them strong self reliance. At one time, Griffith John, a son, was in dire need, and he made a strong appeal to his father for help. He was made to work out his own destiny and at his death was one of the wealthiest members of the John family, with vast acreage of valuable farm land to his credit. Several of the boys taught school in and about Shamokin (now Ralpho) Township, and they all took active interests in the establishment of schools, not only in Pennsylvania, but in the other States to which they eventually emigrated. This bent for teaching seems to be a strong family trait, since it is still very much in evidence in the present generation.

The value of a personal record is often quite negligible unless the writer is a person of great achievement or fame. Eliza John was neither a woman of great achievement nor of fame. She was merely a typical woman of her day, an active Friend and a vivid personality. She loved people, and she enjoyed her life, although many days were made bitter by the physical weakness which tormented her and which caused her to suffer terrific headaches.

The great value of her record lies in the fact that she apparently made mention of every person she saw or contacted during each day. She spoke in detail not only of her own travels, near and far, but with equal interest of the goings and comings of her many relatives and friends. She was interested in everything they did, and no doubt they were questioned minutely by Eliza whenever they returned from a meeting which she was not privileged to attend.

There were 1,735 persons mentioned, including 111 of her own family. Births, deaths, and weddings are recorded, and are often described in detail. Unseasonable weather always drew comment, so we are told when high water ruined this crop, and when hail and snow blighted the spring buddings of the fruit trees. Abolitionist meetings are recorded, and many interesting reflections regarding the War Between the States are given, but no mention is made of the fact that certain members of the family were part of the Underground Railroad, although Eliza John most certainly must have been aware of the fact.

Although it was not the custom in these early years to give higher education to "the Female of the Species", it is a known fact that the father of Eliza John was an early advocate of education, and he was one of the first school teachers (perhaps the very first) in Shamokin Township. His children were educated, and although Eliza John at times misspelled words, her Grammar was quite good, and, most important of all, she had the power to make her words live. The grim reality of life is there, and it comes through the most simple of phrases. Just a word or two, and a whole picture of a family's grief is before the reader, and it is difficult to realize that these people have found their Peace, lo these many years ago.

Through the valleys and over the surrounding hills stalked Death--. Not the Death, which gently touches the shoulder of the aged and pain wracked,, bringing sweet relief from suffering, but Death horrible and swift, which in one week, in one day, would wipe out whole families. Time and again the Diary mentions a visitation of this Spectre in the form of Diphtheria, Small Pox, Pneumonia, and Consumption. As was the custom among Friends, and perhaps among all kind hearted people at that time. when pestilence struck, members of the family or kindly neighbors took turns at sitting up with the stricken one. If Death took the sufferer, these same relatives and neighbors prepared the body for its last rest. They knew nothing of "contagion" and "inoculation against disease". All they knew or cared about was the fact that they were needed, and it was God's will that they serve the need. Eliza John was called many times for such service, but she was spared. It was a slower, more painful fate which awaited her.

Another important aspect of the Diary is the fact that throughout its pages may be traced the gradual, though definite movements which eventually led to the elimination of the Society of Friends in that neighborhood. One of the greatest factors in the loss of power within the Society was the inroads made upon its membership by other denominations. Large Camp Meetings were held in the region from time to time, and they were largely attended by Quakers, as well as members of other religious groups. Each time, proselyting resulted in the conversion of some Quakers to another faith. Another leading factor was the unpredictable nature of the climate. The sudden storms, both electrical and freezing, often ruined crops, causing great hardship and financial loss. Those who were in position to move from the Valley quite often did so, taking with them their entire families. The John Family started moving westward in 1846, and the migration continued until 1868.

Family History is often a dry, uninteresting subject. Under the pen of Eliza John, the history of the John Family becomes the concern of all members of the family. Those who have been interested in the Genealogy before, find their interest reawakened on reading those pages. Those who never before delved into the past, find within themselves a deep feeling for those ancestors who come to life again for a time as Eliza John paints her pen pictures. This lovely lady, in sketching her own life, gives a true and accurate reflection of her day and her people. She is typical Quaker---God-fearing and God-loving. She prepared in Life for her Death. She had a firm faith in the Life after Deatn, and she was never frivolous or foolish, although she often enjoyed the simple pleasures which camt to those serious minded Quaker folk. Life was real and often grim, especially to one who knew full well what her fate would be. Eliza John knew that she was the victim of the dread disease of Cancer. Even as she tried to find a cure, she must have realized that the end was near, as the pain grew ever more acute. The conflict between her strong Soul and her failing body is told briefly but surely in the last word of her Diary---"trouble".

This entire record has been typed from a micro-film copy, obtained from the Newberry Library of Chicago, Illinois. Parts were very difficult to read, and I used, what seemed like, the correct spellings. With a few exceptions, I tried to copy the Diary exactly as Mrs. Helen Doup John had copied (in the case of Samuel's wife, Angalina-in the Diary, it is written as Anjalina, and I thought it was a typing error until I had gone too far to correct it.

(November, 1840)

11th month the 9th, Polly Gaas died. Eleventh month 10th my dear Mother died. She was taking a first day night with a pain in her hip and side which turned to the Cholick. We tried everything we could think of but of no avail. She grew worse. We sent for the Doctor. He staid near two hours. We sent for him in the evening again. He staid the greatest part of the night. The widow Miller staid here also. Mother seemed better toward morning and was very sleepy. The Doctor came in the morning again and staid till 12. Elida came about 2 o'clock and went home to send word to the boys. She seemed to lay easy and sleep most of the time. About three she became restless and we observed she altered fast. She would answer when spoken too sensible. I blowed the horn for some body to come in. Her hands were cold from morning. We lapped them in warm flannel. Every little while she raised up in her setting and wished to lean on Sarah. We put a chair behind her but to our great sorrow her spirit took its everlasting flight before any person came. Sarah and myself were the only witnesses of the mournful event which happened about half past four on the third day. On first day she took sick, she had a desire of going to the opening of a friends meeting near Asa T. Johns. But as the day being very rainy she declined going. Perry and myself went. She read nearly all day and till bed time, But before she retired just mentioned not feeling well through the day, also signified she expected to have a poorly spell. After going to bed she felt pain and requested me to get some Batemans drops, and I believe rested till the latter part of the night, then awoke in violent pain which still increased, attended with a sick stomach. --Next morning we thought her better because she could sleep. When the Doctor came he charged us not to let her sleep because she would sweat and that was weakening her. We made chicken broth and gave her some every twenty minutes, but with all we could not save her from

passing the dark valley of the shadow of Death. And we hope she is landed where the wicked cease from troubling and the weary are at rest---we cannot see her here. Her place is vacant. When recollection reminds us that the departed is low in the grave, we deeply and mournfully feel our bereavement---And may it be a warning to us all to be on our watch. My desire is that we may be enabled by divine assistance to meet the messenger of death with peaceful tranquility that we may have our work done in the day time. And may our lamps be trimmed and burning and our Souls redeemed from sin. Sister Emily staid nine or ten days with us in our comfort. 15th of tenth mo. Hannah Hughes was buried at Muncy. She and her Mother had went on a visit there and she lived but a few days. She was a young woman, a member of the Society of friends in Catawissa. 25, John and Jane Yocum came and spent the evening with us. Next day Jonas Gilger and Adam Gilger and wife was here. 29th received letters from M.A. and J.A. Janney.

(December, 1840)

Staid till evening. Fourth day went to monthly meeting at Catawissa. Friend Wm. Underwood preached. Had a fine meeting. Dined at B. Sharpless. 19th John Parvin Eves, Joseph Iddings, Wm. Underwood and Elida John came here. Had a family sitting P.P. Eves appeared (sic) in supplication and spoke a little. Likewise Wm. Underwood. In the evening they had meeting at the school house near Asa T. Johns, J. Iddings and Wm. Underwood is from Centre County. 12th mo. 29th Elida John, Westley John, Edwin John, Perry and myself started to go to Fishing Creek. We stoped a few minutes in Danville with Aunt Leah Mellin, then went on 4 miles to Thomas and John Williams and was kindly received by them. Dear William Underwood and several more friends from Centre was there. Jeremiah Moore and John Flay being Ministers had a fine meeting that day. In the evening went to Ezra Eveses. Next day had a good meeting. Several testamonies delivered. I was pleased at seeing J.K. there. Hannah Heacock and self went with George Eves to dine. In the evening returned to the meeting house, being on a Committee I was leased with being there. It was instructive to me. It was on the Yearly Meeting subject. A number of people was there. It lasted till near ten o clock. Lodged at Ezras again with Dear Hannah. H. had a setting there a memorable time a great deal of satisfaction with Hannah Heacock. Next day was Youths meeting. A verry solemn and w-eighty time. J.P. Eves was moved to walk up in the gallery and confess before all the congregation how the Surpreme being had been a work with him and his exercises and how he had been wrought upon by a Servant of the Lord Ann P. Jackson six months before and for his disobedience at that time. Then he was required to appear in public and declare the operations of the Lord of hosts with him. He also said he had been enabled to keep his feet except once he was walking on the woods and felt most easy to prostrate himself on the ground. It was an humbling and tendering time to hear him speaking. John Way spoke, Reuben John, Ezra Eves, Jeremiah Moore and dear Wm. Underwood. His voice was musick harmony divine, Celestial sweetness dwelt upon his tongue. Such persuasive language I took every testimony for myself. Much labour (sic) I think I never witnessed at friends meeting. It seemed as if they could not give up pleading. A verry weighty time. But there was something wanting in me. some obstruction to be removed. I thought I was willing and desired nothing more than peace of mind. After the shutters were closed, William felt a drawing to come and set with women friends. Oh then I could say the Lord is good. A verry melting time. It was him and John Way spoke beautiful to Mothers that had the care of children and how to endeavor to bring them up and to the young women that they should look to divine wisdom for direction in choosing companions. I hope I may not forget (one line missing: bottom of page torn and ragged). On Christmas evening, we went to Samuel Kesters to meeting. Wm. Underwood and J. May preached edifying. Perry and self went to Aaron Kesters to Lodge. David Philips and wife was there too. A verry agreeable time there. Elida and Westley staid at Samuel Kesters. Next morning it was snowing. I read a letter to them from my friend Hannah Haycock. After refreshing ourselves we started again. It was bad traveling. Continued snowing all day. We arrived home

about dark and found all well. Next day Westly took Martha Thomas home. She had been out in this neighborhood better than 3 weeks.

(January, 1841)

He spent the afternoon at Elida in company with Hiram and wife and S. and wife. That night Isaiah Mitlers, Jr. house was burnt. A great accident and loss indeed. No lives lost. Abia John had to meet the committee concerning his request. Sophia John likewise made application to be received into membership. 2nd. mo. 12th. Was a sale here of the property of our Dear departed Mother. It was a time that had been long dreaded. It caused great agitation and confusion, of mind. Doctor Robbing and wife, Leah Robbing was here, being the first time she ever was here. A valuable woman in her way. Reuben and wife and Abishia Thomas staid all night with us and next day Henry G. Thomas from Chester County was here at the vendue, my sisters step son, and the day before being the 11th of the month, my Nephew Rowland Hughes was married to Mary Ann Dolby of Berwick. Eleventh day eve and first day I had to feel anguish of mind on account of things we bought through fear and ignorance. I bought things I did not intend to and gave too much or bid too high on things that I thought we must have. I think if my mind had been composed it would been otherwise. Then I would not of felt such distress so. I hope we may get along comfortable and be enabled to do what is right, is my greatest desire. This day Sally Ann Wellever and Susan Falper was here. 2nd mo. 22nd. Francis and Benjamin Eves came here on a visit from Fishing Creek. Very weighty and lively indeed. The Friends used great satisfaction in being at the meeting. 'Myself and Sarah and Martha dined at Hiram. An agreeable time. After noon went to Eldas to accompany them Friends to our house. We had a verry agreeable time with them. Next day we accompanied them to Asas Hiram, Abias, John Water, and the Widow in paying family visits. A verry

instructive and tendering time. They returned with us in the evening, and started for home next day. On Fourth day we was at monthly meeting. Had a comfortable meeting. Returned home from meeting at Elidas and took supper, Asa Johns horse was killed. A great lose indeed. It was occassioned to kicking of another horse. 19th Asa, Joseph and Elida was in, it being election Day. 27th, Rowland Hughes came here and went with us to MeetiNg. Next day. He had lately been married.

(April, 1841)

We was as late returning home. I had a bad head ache and got it before I got home. Next day it snowed several inches. Next day, Easter the eleventh of fourth month. Sarah was sick. We went to meeting and was late. Returned home from meeting. I forgot too mention that on the 4th of this month William Henry Harrison, President of the United States, was called from work to rewards, being only four months after he took his seat in the Presidential chair. He is deeply mourned. A few days ago Wm. Boyd was accidently drowned. Abia and self went to monthly meeting at Cattawissa. Dined at Sharplesses. (May, 1841)

5th month 1st, 1841 I went to Shamokin town and staid over night at brother Jehus. Next day was verry stormy. W. Underwood and Joseph Iddings came to our house from Centre County and staid over night, while I was from home, of which I was sorry. Next day they was at a meeting which was fine and large. They were on their way to the meeting. 4th, we heard of the death of Edward Lynville of Cattawissa, a valuable Friend. The next day Casper Hartman was laid low in grave. A worthy Methodist, one that will be verry much missed in his neighborhood. 5th mo. 5th and fourth of the week. Elida, Samuel, Perry and myself started for Philadelphia. Just after sunrise we passed through Beargap in the little mountain, thence over the big mountain, and had a beautiful prospect of the valley between the mountains. Next we crossed the locust mountain. We stoped to feed at ten o clock at P. Klines tavern ten miles from Bear gap. Then crossed the broad mountain. Had a romantic prospect for many miles around. We passed through Newcastle, a town that has gone down, and looks shabby. We saw the railroad along the Incline plain. Twas a curiosity, very steep. Next passed a powder mill, then through St. Clairsville and on to Port Carbon, a handsome thrifty town. We saw a number of coal mines. Then on to Pottsville, the largest town that I ever saw. We fed at Mortiners Hotel. I began to see curiosities in this town. I was introduced into a room where a Friend from Baltimore, by name of Husband, was teaching boys to write. After they had done their task, they all went away. I was told he gave 10 lessons for 1 dollar. It was a rainy afternoon, therefore I had not as good chance of seeing around. We traveled 8 miles to Creighsburgh and staid all night at Michael Greafs tavern, closed by the court house. We saw the likeness of the 8 Presidents. Next morning we started before and passed the Mill that was burnt last summer, but it is rebuilt. There was Iron works there too. We passed through Port Clinton, perhaps 30 or 40 houses, and one foundry and railroad from Tamaqua runs there and canal, but it is dull lifeless place now. It seemed to be so. Below there we saw the big dam. but did not get fair sight of the tunnel they are making a railroad from Pottsville to Reading. We stoped at Hamburg at John Bailey Inn for breakfast. We had traveled 11 miles that morning, Had an excellent breakfast, shad, Sausage, Ham and eggs. Here they told me that Dani-- (page torn) was married to Priscilla Fether, a wealthy tanners daughter of that town. They said Daniel was our neighbors son and lived in sight of us when a little boy,

but he had been living with his uncle ever since and learnt the hatters trade. I would been pleased to see him. Then we traveled on to Maiden Creek. Arrived at our kind friends James and Sarah Starss about one oclock and took some dinner there. They had five rice children. They told us that 17 friends had passed there on their way to the city. About two we started again and passed Maiden Creek Meeting House and some excellent buildings and delightful farms. We saw where the wright girls lives, five sisters. The buildings are chiefly stone, verry neatly finished off. Limestone houses look better than common. stone. We traveled over the Oley hills, verry rough indeed. Most distressing bad roads. We passed a beautiful little town called Freedensburgh. Chiefly stone the houses were, small and neat. Stores, taverns, and so forth. Next we came to Exetre and passed their meeting house, then on to Emily to John Lees, near Monoquscy Creek. We had traveled sixteen miles from Stars, awful roads, and arrived at Lees just before dark. We was kindly received and entertained by them. Had traveled 35 miles that day. Next morning John Lee brought us out to the Reading turnpike with his wagon. Then we saw beautiful farms, chiefly stone buildings. Some was plastered, some rough cast. We traveled in sight of the Schuylkill and the railroad for some distance. We passed through Dougleasville where the road turns off to the forest and Chester County. Also passed through Pottstown or Manitanwy a most delightful situated town where the noted Ruthanna Rutter was raised. Oh, I thought of her and wonderd which she lived in and saw a splendid white house on a little hill, with a walk on the top, and with porches around the house. We heard afterwards it was called Potts Folly. We passed Trapptown, Jeffersonville. Also passed Perkioman bridge, a wonderful sight. Here the turnpike forks; one goes to Germantown, the other to Norristown and on to Phila. We saw the railroad bridge over Manitanwy Creek. I thought it was nearly as long as a river bridge. It had no roof over. Bridges through here are chiefly stone and walled up on each side, and the name of the water the bridge is over, and who built it and in what year and so forth. We fed at Peter Buckers inn, in limerick township. We at length arived at Norristown, the largest and most splendid that I had yet seen. We stoped to feed at a stage office. Brother Perry and myself walked down to the cotton factory, a most wonderful sight. They were carding spinning and weaving. They told me there was between one and two hundred hands at work, men, girls, and boys. They said one loom could weave about forty yards per day. They looked like 8 or ten cent Muslin. One girl told me it was to be sent to Philadelphia and printed for eleven penny bit calico. I was sorry our time was so short that we could not view more of the curiosities in the number of Factories. We traveled on to Plymouth and found where Peptimus Woods lived. Perry and myself turned in there; Elida traveled on for the City, it being a distance of 13 miles from S. Woods, they are living on the Reading turnpike leading to Germantown. Well we were welcomly received by then. His wife Phebe is a minister. She has a niece living there by the name of Susanna Ga~ony from Limerick. A good looking girl, but rather wild. Her sister Lucy Ann was there on a visit. She was verry wild. They told us of a funeral procession in honour to President Harrison in Philadelphia some miles long, a hearse followed by Harrisons horse with crepe round its neck, and abundance of foolery. Next morning it was raining. We saw Plymouth meeting house. Willaim Underwood held meeting there the day before and some of the fishing creek friends was along there too. Woods family was verry much interested with them. About 8 oclock in company with Phebe Wood and Jonathan Jones we started for Phila. We passed by two marble quarries and saw abundance of marble in sight of Woods. We went over Barren Hill and passed through Roxburgh, a town something like two miles long, houses built each side of the turnpike. Verry neatly. We saw Mary Yonk and the railroad Bridge over Schuylkill. It was a great sight. Then next we saw Lawrel Hill. It is verry beautiful place. It is fenced in with black rails, nice gardens, trees, bushes, pleasant walks, glass beds. I am not certain whether it is church that is there or not. I cannot give particular account as I was not in the enclosier. There is some marble Images and carvings we saw as passing along. At length we came in sight of the City. Saw Girard College and the house of Rufuge and shop factory. At length we arrived at Thomas B. Longstregh, 3rd St. . 272 and was kindly received by dear Thomas and Lydia with their six daughters, the eldest I suppose about fifteen. We got there about eleven oclock. Dear Elizabeth Newport came there and dined with us. Afternoon Perry and self walked out in town. Went to the Delaware. Saw a number of ships standing and steamboats running, and a number of curiosities. Thence to the Statehouse and up 8 or nine pairs of stairs up to the steeple where there is a walk that persons can see all over the city and many great curiosities. In the evening Lydia and me went to a shoe store. There was a

number of curiosities everywhere to be seen in passing stores. We saw wax works and most everything that could be thought of. In the evening there was several Friends came in to Longstreghs. Allis Chandler, Hannah Heal, Jane Pearse, Mary Pancost. Had the opportunity of hearing W.L. Garrison speak but it was not convenient for Perry to take me along. I was sorry that I could not get there to Clarkson hall. But I was agreeably entertained with Alice Charndler. Next morning we went to Green St. There was ten testamonies delivered. Sever females and three males, Jacob Ritter, Rowland Johnson and Allis C. The others I did not know. R. Johnston dined with us. After dinner Elida, Samuel, Perry and myself walked to Willaim T. Johns in 13th St. Had a nice time there. Their daughter, Caroline was sick. At four, E. P. and self went to Cherry St meeting and left Samuel at cousin Wm. Johns. I believe Sarah Brown preached, from Virginia, and some others, J.R. for one. In the evening, I had the pleasure of seeing Dr. Fussel, Dr. Noble Samuel Levick, a young minister of 21, and friends from Ohio and New York, and Gideon Pearse and wife from Chester county. 2nd day. verry rainy. The Yearly meeting opened at ten. The most women collected together that I ever saw. Perhaps two thousand. The women met at Cherry St. and men at Green St. The first meeting seemed to go on to sattisfaction. Several testamonies were delivered. A good many to dine at Thomas. The afternoon meeting was disturbed by Mary Cox, a person that friends has rot unity with. They consider her a little wrong. She uses good language and had much to say. In the evening I went in company with Fishing Creek Friends to John Buntings, I think in Spruce St. to take tea. A verry agreeable time with Rebecca his wife and her children by name of White, two sons and two daughters. Chandlee Eves accompanied me home, it being after night. I felt great uneasiness about finding the way back, it being a long walk; I feard they would be gone to bed, but we were favoured to find the place. Elisa Newport, Jane Pearse, Rudah Wing, Lydia Ann Hockman, my bed companion, and some others were there. Next morning Elide, Perry and self went to Dr. John Sharplesses to see Aunt Joanna and Aunt Phebe. I was glad to see them, Ann Lamborun came there too. Cousin Georgie did not come as was expected. They made us promise to come and dine. We appointed sixth day. I went to meeting with Aunt Phebe. There was several communications by Mary Pike, Elizabeth Newport, Mary Rollin, a young widow, Allis Chandlee, Mary Lippenoot, Rachel Hunt, Lucretia Mott and others. Aunt and me dined at Joseph Sharplesses, a cousin to Aunt Phebe and to my mother. They were verry nice. They had the grandest furniture and richest ornaments that I ever beheld. I was told that their window curtains over four windows cost I think about four hundred dollars. Next the glass was thin white flowerd book muslin or something fine, handsomely worked, and the over curtains were as near as I can discribe, was thick rich colourd Sattin, I know no other name to give it, was wove double and in flowers, I think red and yellow with guilt tassels and fringes. They hung from near the ceiling to the floor. I cant discribe them no more. I believe their lamps surpassed all that I ever saw, wonderfully carved and ornamented glass hanging like diamonds around them the length of a finger. The lamps were hanging to the ceiling in their parlors. They had a splendid diner prepared for us, Moses Penrock, Aunt and myself. Rost beef, potatoes and sweet potatoes, sallet oyster pie, plumb pie, dranberries and so forth. They have out one child, a son Charles, and verry handsome. Him and his parents had their likenesses drawn. While we were dineing up chamer, cousin Geogianna Janney came to see us. It was a joyful meeting. We staid there an hour or two and Maria Sharpless entertained us by showing curiosities, some that was brought from Cape May and some from Parris, and many other things. They treated us kindly Aunt P. ad Cos. G. and me started for meeting and saw Marshall Scarlet. He seemed to take great notice of us, but he was across the way. We also saw some of my acquaintances from F. C. We arrived at meeting and sat the greatest part of it, and then went out and walked up and down the yard, to have opportunity of conversing together. We regretted that we must be seperated and could not lodge together. Hannah Heacock went with me to Longstreghs for tea in the evening, we was at Green St. at an association of abolitionists. A great number was there. After the papers was read by the clerks, Elizabeth Newport gave a preaching address, verry good; then George Trueman gave a lengthy discription of the West Indies which was verry instructive. He took up the evening so that no other had a chance of speaking. Here I got sight of Wm. Underwood and J. Iddings and Henry W. Ridgeway. I returned in company with S.R. Heacock to Gaberal Middletons. From thence home and found Jane D. Pearse, Lydia Hickman, Huldah Wing from York State and some others who lodges here. We have the opportunity of seeing a number of strange Friends from a distance. Fourth day at eleven oclock went to meeting. It being verry rainy a number of communications

were delivered. Sarah H. Palmer, the assistant Clerk, took me home to dine. A verry good looking and interesting woman. There was several others there. They, had two coloured girls to wait on the table. Their daughter Fanney Palmer went with me to get a bonnet at M. and S. Hollinheads. There was a store kept there. We returned and then went to meeting at 4 oclock. An interesting time. In the evening, met with a committee relative to forming a new yearly meeting. A free enterchange of sentiment was given to general satisfaction. William Gibbins acted as clerk. Wm. Underwood explained the subject and of the situation of friends in those remote parts. Then James Nott, Henry W. Ridgeway, John Jackson, John Foulk, Henry Zolicoffer, John Bunting, Rebecca B., Phebe Wood; Allis Chandlee Jane Johnston, Sarah J. Lee, Ann Hannah Williams, Ruth Pile, Hannah Heacock and Ezra Eves, Isaac Townsend and some others spoke on the subject. It was an interesting sitting, verry instructive. The most of them that spoke had been in Centre and at Fishing Creek and all had something incouraging to speak of and expressed their satisfaction on being there that night as it being a favourd opportunity. Here I got to speak with Wm. and Joseph and introduced them to some others. We had met in the street before twice. Elida, Lydia Longstreth and myself came home and saw the fire engines running the streets, a curiosity. A wonderful sight of boys was running along following and making a great noise. We met firend Rowland Johnson at the door of Longstrenghts. He regretted not having me to dine that day, saying he had Elida arid Perry and pressed me to come there. He is an agreeable young Minister, verry pleasant, and is esteemed by Thomas and Lydia L. Fifth day morning went to Green. St. Meeting. Ten communications were delivered. J. Jacson, J. Foulk, Mary Lippencot, Eliza Newport and others. Elida took me to Joseph Warners where Jane Johnson lives. She had appointed for us to be there that evening. She was verry kind to me. A great dinner was prepared, the greets assortment that I had yet seen; a black man to wait on the table with a white girl. She live verry grand, Jane has a mother and two sisters and three brothers. They have a delightful garden, beautiful walks and arbour in the city. They don't raise vegetables as we do but have grass sods or patches and bushes. flowers, vines, trees, and curiosites and so forth. Jane told 'me that her Brother Joseph Warner Johnson was to pass meeting the next week with Peter Wrights daughter. Afternoon Isabella Johnson went with me to Cherry St. In the evening we had a sitting at Thomases. Wm. Underwood, J. Iddings, Elizabeth Newport, Rebecca Pearce, Rowland Johnson, Wm. Simmons from Sodbury, a young man; Jane Pearce, Anna Bartram, Huldah Wing, Lydia Ann Hickman, Elida, Perry and myself was there besides the family. Elizabeth Newport was led to speak to several States, powerfully, to Underwood and Simmons, Perry, Huldah and Eliza. I thought and believe. It was a deep and Solmn time. I think I shall not forget. I cannot express my feelings at that time. I believe she was speaking the everlasting truth. What was said to me has been and will be a strength to me. Next morn. Brother Elida and myself walked out to several stores. From thence to Doctor John Sharpless. Aunts Joanna and Phebe wen with me to meeting and returned there to dine. Elida and Perry came there too. Allis Chandlee and Ruth Pile was there likewise. Afternoon was at meeting. My aunts was not well and staid at home. In the evening I returned there for tea and to meet Cousin G. Anna Janney. Elida and Perry came to have some opportunity with her and aunt Phebe for the last time that we expected to be together in the city. The time was short but was agreeable. They were verry anxious for us to go through Chester County, which would of been pleasant had it been suitable. About nine we took leave of them and returned Longstreghts and found John Jackson and a number of young friends there. We had a sitting. J. Jackson spoke for encouragement to us all. Some of them was his schollars at Darby. Next morn Friends met again and got through the business and had a number of weighty communications by E. Newport. L. Mott, Rachel Wainwright, R. Hunt, Mary Rollins, Mary L. Hunt, Dear Wm. Underwood, and Joseph Iddings and John Bunting visited our meeting and was received to general satisfaction. William had a message to deliver to Mothers to be more strict with their daughters and endeavour to bring them up in the simplicity of truth and to the daughters how careful they should try to live and throw off their ornaments and walk in obedience to the divine will and be a Joy and comfort to their dear Mothers. After he sat down Sarah Brown from Virginia arose and spoke, then S. Underwood -- Rochester--, Rachel Hicks from Westbury, Long Island, and R. Sharpless, Susannah Eaddock, May Care, Mary Ware, H.K. Heacock, Sarah Underwood supplicated and the meeting ended in Solemnity about twelve oclock. We returned to Tommys and dined. Sally L. went with me to G. Middletons to see Fishing Creek friends. About three we took an affection farewell of Huldah Wing from York State. She seemed verry tender and gave me some

advise and encouragement. We had lodge in the same room near a week. We left dear Eliza Newport there too, the rest of company had gone before us. We parted with the family and started for home. Brothers asked me to go to see fair Mount water works but understanding it was two Miles off our road I declined going, but since I have been sorry that I did not go, on hearing of the wonderful curiosities of the place, We came on to Girard Colledge and viewed the wonderful works. It was built of Marble, great lofty columns of solid marble nearly as thick as a hogshead. It fairly dazzled our eyes to look up to the top. Inside was brick arched all around. Above and below a number of large rooms. We went up several winding stairs until we arrived on the top of the building where was seats to set on boarded around. The roof was nearly flat though a little descending. We could see all over the city and the steeples and Shop Factories and a distance around this great colledge is to be covered with Marble. There is 22 column put up and have not all up yet. They are still working at and preparing Marble. I was told how many feet the building was but I forgot. We came on to Plymouth and passed two marble quarries and came on to Septimo Woods and was kindly recieved by them. Had a great deal of satisfaction with Phebe Wood. She is an old woman and just returned from the City as we did. We over took them a few miles before we got there. Susannah was glad to see us and charged us to come there again. Next morning we came on to trap town and fed at David Palegroves Inn, then came on to John Lees, a distance of 32 miles. We came through Douglesville and Pottstown. We got to Loss between four and five and was welcomly recieved. We being hungry and fatigued, and next morn we came to Reading and fed at Beards Tavern. I was in wo stores but bought nothing. We saw Samuel Train and where he lives. This side of the town on the hill we met a great storm of wind and rain. Came onto Port Clinton. Met a John Yeagers and heard that Fishing Creek friends was ahead of us. We traveled 28 miles against three oclock. I did not think much of the place nor tavern nor women. We came on. Two stages passed us in a narrow place, near the burnt mill and Iron works. The mill is rebuilt. We met Mordica Lee and wife. Mordica Lee and wife returning home from Roaring Creek. We came on through Orwigsburgh and arrived at Pottsville about dark and lodged at Mortimers Hotel. We traveled 43 miles this day. Next morning the third day, we started just after sunrise and traveled over the Mountains and took breadfast at Peter Kines tavern. From thence to travel on and arrived at Elida Johns about two oclock and we staid there for victuals, then came home and found all midling well except Sarah. She was just taking sick. They were glad to see us and we glad to get home. Next morning Samuel Kester, Ezra Eves, Hannah Heacock, and Benjamin Eves came here for breakfast and rested a few hours and had a setting here. Hannah spoke in great brokenness, then they started for home. Next first day we were both sick. Sarah continued near two weeks.

Abias wife is possessed of the evil spirits about us going to Friends meeting together. I sincerely hope she may see the error of her state and doings and turn to Jesus for mercy and forgiveness. I hope she may be- come a Christian, that she may be a strength and comfort to her husband instead of trying to hinder and discourage. But they are faithful through tribulation shall obtain the crown. 14th Reuben and wife came here and next day they all went to meeting. A large meeting. I staid home. 9th month, 4th, the Methodists camp meeting commenced. They report that there was 63 proffessed to be changed and that the Blessed Savior spoke peace to their souls. Oh may they be enabled to hold out to the end. My sister-in law, Elizabeth John, and my niece Mary John, professed to experience Religion. May they live a Christian life and honour the truth. I was at the camp the last right and felt verry serious on beholding the mourners in the alter suplicating mercy, and shouting praises to the Lord Jesus for His goodness. I greatly desired that I might be favoured to feel the divine presence too, but I was unworthy. There was something wanting. I do sincerely desire to be a Christian. 15th I with Elida and wife went to Roaring Creek Monthly meeting and heard some good advice communicated though I felt poor and low for some time. 13th, Reuben was at our meeting to sattisfaction. The mother was verry friendly and owned her faults and said friends should do as they thought best with her, though she liked friends. It was a hard trial for me to go there. It was the first that I had to do in the line of overseer but after was satisfied that I gave up to go. Two of the girls was not there. Ws living from home. Oh how sorry I felt for them to care so little about friends.

Next morning we started early with Palemon and the dearbourn for Pottsville. We had a pleasant ride over the mountain. The honeysuckels were in bloom and a number of other wild flowers and the fields add woods were green. It was truely delightful. We arrived in Pottsville about two oclock and fed at Mortimers tavern. I was verry

much fatigued. Isaac Thompson conducted us to Catharine Dimicks where I staid over night with her daughter Maria, a nice young woman. Catharine was from home, taking care of a sick woman. They sent for her and she came home and spent the evening and her sister Sarah came in likewise. They seemed pleased to see me and used me verry well, and I had a comfortable time there. Next morn after six the omnibus came for me, though I had been verry uneasy for fear it would not come and I be left behind to my great joy it came, and I was ready and waiting. It gathered up a number of Passengers and Jesse Bromall among the rest, which I was glad to see. He Was the only person that I knew. We was taken to the depo where was a great bustle. Jesse kindly took my money and procure me a ticket to insure us a seat, and helped me in the car. At seven we started and in a few minutes was four miles to Schyulkill Haven. They stoped to take in passengers. Elida was one that got in there. He had gone there the day before to visit his brother in law, John Hughes. The cars stoped at all the towns along the route for to take in and let out passengers and to feed the Engine. In about five and a half hours we traveled about 87 miles and arrived at the city and got in a cab at the depo wad was brought to T.b. Longstreths near one oclock and was kindly received by them, and glad to have a rest and we washed our selves and soon had dinner. Anna Bartruam, a young minister, came there just as we did, and Jane D. Pearce and her sister Amy came there too. After dinner I drest and Elizabeth and Lydia Longstreth accompanied me to a bonnet maker, then E. went home and left Lydia with me. We went to Ellen Parkers to see Georgie Jenney but her and Aunt Phebe John and Mary Penrock had gone out so I left her packet of letters and E. Parker invited me to come again. Then we returnd home. John Lee from Maiden Creek and Gideon Pierce from Fallowfield came in the evening. My friend Huldah R. Wing and companion Mary Peckum from the State New York arrived in time for tea. We were :glad to see each other. We had lodged together three years ago before in attending yearly meeting. She in a speaker not yet recommended. Benjamin S. Janney and Georgianna came in the evening to see us. There was great joy at our meeting. She was considerably altered to what she was when I saw her before. She used to be verry fleshly and now is lean and pale. She informed us of the death of Aunt Pamela and Uncle George Brerhelts, both within a few days. Next morn at ten oclock we went to meetings at Greenstreet John Hallick, Allis Chandler, Sarah Griffin, Hannah Heacock, Mathew S. Foster and one female all preached . It was raining when meeting broke. Elizabeth Longstreth accompanied me with an umbrella to meeting and back again. Rachel T. Wright, Allis Chandler, H. Heacock, Elizabeth Andrews, H.W. Ridgeway preached. Jeremiah Bernard and wife and Rebecca Hawley, our cousin from Chester C., and Lydia Lee, wife of Mordica and John Lee and wife was here for tea, besides the boarders, and Aunt Phebe, cousin Mary Pennock and Georgie and Benjamin Janney came the eve. Verry agreeably Indeed. Next morn being second day I went with Lydia L. to market which was a curiosity to see, and sattisfactory. We likewise went to the Bakers to get some bread. When we returnd we found Samuel J. Levick there and was introduced to him by T.B.L. He is s young minister in high esteem. He is a widower and going to be married. They said they had a desire to visit in our parts which I told then we would be happy to see. We met at ten at Cherry Street, being seckond of the week and 13 of the month. Yearly meeting opend the Representatives were calld and all present by nine. The Epistles were read from other yearly meetings, to sattisfactor. Several commications were deliverd by Mary Smith. Mary Lippencott, and others that I did not hear their names. We dined at Eliza Parkers. She is our cousin, the one that I was named for. We had not verry much sattisfaction with Aunt and Cousins owing to much company being she keeps a boarding house. Elida and I as invited again to dine or take tea. At four oclock Mary Pennock went with me to meeting. Huldah B. Wing and several others had something to say. There was a request came from, Caln quarter for an alteration in disipline that offences might not be recorded to had down to posterity and that acknowledgment might not be be required to be made of offenders. A long discussion of a number of friends were made and at last laid aside for the present. When meeting broke we heard of a Friends son being drownd during meeting. He was Anthony Morrisson, a young man. His body was not found for several days. His Mother was most distracted. Deborah F. Wharton invited R. and self to come and dine some day. In the evening several friends came in. Elizabeth Andrews, a minister from Salem

quarter, I think, with her two daughters, one an infant, came to lodge here. Allis Chandler came and spent the evening verry satisfactorily, and two young men from Baltimore, Amos Shaw and David Ferris, a nice looking young man, I think the grand son of David the minister Third day morning Rowland Johnson brought Eliza Newport to Longstreths to attend Yearly meeting. She lives at Abbingdon. At ten the meeting opend. The subject of our yearly meeting came before us. It was verry interesting. . Much expression was given, and great sympathy expresed. There seemd to be but one that objected and that was Anna Garrigus. It was proposed to appoint a committee but the Meeting was informed that the mens meeting had laid it by for another year or I believe it would of been granted. Elisabeth Petit, Eliza newport, Mary Lippencot, Mary Rollin., A. Chandler and a number more that I dld not hear their names spoke. After meeting I went with Aunt Phebe and mary Pennock to Samuel Townsends to dine. His wife was Mira Sharpless, a first cousin to my Mother. They were verry kind and invited me to come again. They entertain a number of Friends. Elisabeth Petit was there. She had lately buried her husband. Barkley and Mroton Pennoxk, Mary P's sons were there. They are our cousins from Kennet. Sarah Harvey, a granddaughter of Amos House was there too. After dinner we returnd to E.S. Parkers and Georgianna went with me to a bonnet makers at Ruth Jesses and got two bonnets. At foru went to meeting. The queries was commenced and only got through the third there was so much preaching. Mary Lippencot supplicatd and meeting adjound to 3 oclock on fourth. day afternoon. This evening being the third of the week I had the pleasure of being attended home by my friend Rowland Johnson. I think him a valuable youngman. He is a minister of pleasing manner and much respected. He staid for tea besides a number more. Martha Newport, Elizabeths daughter, a nice young woman of sixteen was there. Several of us wen to Greenstreet to an Abolition meeting. We was late and did not hear the commencement, though several spoke on the subject. Rowland spoke at the conclusion verry pretty in encouragement to them though he had withdrew from them sometime. He said he thought it his duty and has peace in doing so, and at that time he felt at liberty to set with them. After he spoke some time the meeting concluded and after we returnd home the company fell into silence. In a shor time Eliza Newport commenced speaking most wonderful and lengthy to Elijah Pennypacker. The whole discourse was directd to him and he seemd to be smitten and hung his head. When all the rest retirtd from the room he kept his seat for some time. Fourth day morning, Huldah B. Wing invited me in to her room to take names and directions of persons and places where she had a disire to write and that she might recollect persons names and residences and she gave me her directions. She also read to me a letter that she had recived from home since she left which caused her tears to flow when reading about her little son twenty months old. After nine oclock my cousin came to go out a shopping till near noon. We were gone. Jane Jackson and her husband, Paxson Price from Westchester was there, and George Truemen, Junior, from Sharon and Lydia Heald, and several others was here to dine. At 3 meeting convened and we got through the queries. Mary Care, Esther Moore, Elizabeth Peist, Sarah Griffin, Rachel Hunt, Mary Loppencot, Ustacia Addams, Hather Hays, Deborah Wharton and others spoke and meeting closd. I got to speak to Jane Johnson. She dont feel for company. She just lost her mother. She seems verry low spirited. I saw Lydia Ann Hickman and she had nearly forgotten me, though we slep together during yearly meetln three years age. Jesse Broomall, Wm. Wharton, Isaac Underwood took tea here, besides others. We was glad to meet with Isaac so unexpectedly. He said he was attending Yearly meeting. He is from Ohio. He was to see us last winter. 5th day morn. Meeting at Greenstreet, Cherry and Spruce being publick meeting day. We went to Green St. E. Andrews, Huldah Wing, Jacob Lefetra, John Jackson and one or tow females that I did not know all preached and I saw and spoke to Rebecca Bunting. We was pleased to see each other. After meeting Aaron Kester son Parker and dughter Mary Ellen, Hannah Heacock, and myself were invited to John Childs to dine. We had saw them at Fishing Creek. They live in Seckond Street. They has a fine looking daughter, mary. After dinner Rachel Childs told her sister May Teas to go with me to Mary Waltons to see if she would take a prentice to make plain bonnetts, but we did not succeed, as that season was about over. We went to the Delaware and saw a number of vessels sailing, steamboats, and others, and one ship just ariving from Derry laden with Irish. We were on two steamboats. I verry much admire the scenery there and my time was too short to be fully satisfied as it was near meeting time being at 3 oclock. A verry warm afternoon Eleazer Haviland and George F. White visited our meeting and both preached. I believe to satisfaction. After they were gone several females spoke. This evening the mens meeting closd. This day

John Underwood and Matilda Way was married, in Centre county. I had to think of them in midst of this noisy City where we are seeing and hearing all the time. My mind would sometimes wander to Half Moon and Bald Eagle. This evening brother Samuel came to town, or today; he came here to Longstreths, this evening. We was pleased to see him. We heard from home that Perry had not returned from Centre county. The child had the Scarlet fever, which seemed to strike a dampness over my feelings. Him and I went to Eliza S. Parkers to see Aunt and cousin and returned about ten. Eliza very unwell. Sixth day meeting met at nine. We had a solemn meeting, a great number of testimonies. Elizabeth Newport, M. Lippencot, E. Peist, Ruth Pile, Esther Moore, Anna Carrigus, Mary Biddle, Sarah Greeg, Elizabeth Andrews, Mary Rollin, Rachel Wainwright, Sarah Cowgill, Priscilla Townsend, Huldah Wing, Deborah Wharton, Allis Eliza Hamilton, Ann Weaver, Allis Chandler, Mary Covelavis, Susan Pusey, Mary Ann Marshall, Mary Hunt, Hannah North, Phebe Johnson all had something to say. It seemed to me to be the most solemn sitting during the whole meeting. R. Wainwrights preaching seemed to suit me the best. Her language was good and a harmonious melody in her voice. Her words seemed to have a weight that could be felt. It seemed animating. There was others that spoke excellent at different times. The meeting closed about noon and I went to Parkers to dine and to pay them my last visit. Eliza came there, still very unwell. Aunt Phebe and Mary Pennock was invited to take a ride with Joseph Sharpless and wife and only son to Laurel Hill. Aunty not being well, she offered me her seat. After some deliberation I accepted. It was a cloudy day and likely to rain but we had a pleasant ride, about five miles distant. It is a public burying ground. It is splendid, indeed, the most beautiful and lovely place that I ever saw. Everything to draw the attention and please the eye. There is a sweet odour there of lovely flowers -- roses, shrubbery and curious trees. Each person that wishes to bury there gets a plot of ground and had it fenced in by iron railing. Scolloped and ornamented. They are chiefly black; some is yellow brass colour. In some is stately marble monuments of different forms, and the names of the dead and their ages and so forth. In one enclosure was an image of a child, apparently about three years old, dressed of marble. It was laying on something like a table or chest with sheet partly thrown over it in folds, like as if carelessly done. It was very striking. It looked just like a corpse with a sheet over as if in bed. There was a cover over where it lay, all was solid marble, dressed in any shape they choose, I saw two vaults there and was a building in form of a meeting house, though but few seats. It is only occupied in times of storm at funerals. One large window in one end of a curious shape, and the glass is of different colours, like the rainbow. The walks is in circles. The grass sods is cut out of the walk, and to walk on the bare ground about two feet wide. I think one building of marble has old mortality in as it is called; it is the likeness of a man that used to go about fixing up graves, riding on a horse, with his tools, and met Walter Scott, and was setting on a box talking and Walter seemed two be standing or leaning against something, bareheaded, and the old mans horse standing by, with a rope bridle and a bag of tools hanging to the saddle. All was cut out of stone. All their features and shape, shirt collar, Jacket buttons, pants, dirty at the bottoms, as if he had been plowing, and old dirty, shoes and old hat. I was told they had been brought over from Europe. The rich and grand people bury there. My grandmothers sister is buried there, Joanne Sharpless. on her tombstone is inscribed, "Our Mother. She taught us how to live, and how to die." Richard Prices wife and daughter married to George Parrish, son of the Dr. Parrish, lies there. After spending some times, started back, and had a pleasant ride, and came to Joseph Sharpless in Forth St. and there was Aunt P. and cousin G.A.J. She was waiting to conduct me to Longstreths. I took leave of them and we went there and we parted at the door. Our lodgers was nearly gone. It seemed lonesome. I would like to bid some farewell, especially Huldah W. and Mary Peckum, Samuel came in to spend the evening. Jane D. Peirse, Lydia Pike, Lydia Heald, Gideon Pearse and Elizabeth Andrews and Daughter Mary, Eliza and I was the remaining company. Isaac Underwood called two or three times to see us. In the evening, I packed up my trunk and gathered things together for an early start I felt sorry to leave them and the city, as I did not get to see all that I desired and not knowing when I should go there again, if ever. Haliday Jackson and David Ferris spent the evening there. On 7th day morning after six the omnibus called for us and we bade farewell of our kind friends and started. We was taken to the depo and got in the car and there found Sarah Pilkinton, Mahlon Hicks, John Starr, James Starrs wife and daughter and Sarah Right, Elizabeth Lightfoot and son Thomas, five of them was from Maiden Creek. We had a tolerable pleasant ride except dull and rainy in the fore part of the day and we did not feel very well. We passed through 3 tunnels, About 1 o'clock we arrived at

Pottsville and about two we got in the stage at Weavers tavern and I got verry sick and vomited out of the stage twice and I was so sleepy I could not hold my eyes open, they ached so, and I felt so dull and sometimes verry sick. About nine oclock we got to Leisenrings. Oh how often I wishd to be at home in bed while in the stage, but we soon got to Wessers and brother Perry was there with a lanthorn (means lantern M.Z.) to meet me, and we soon walked home before ten and all glad to see me, and I them, and we set up and talked till eleven. I felt a little better. Rebecca and Griffith was poorly. The babe had the scarlet fever a few days before and they had just returnd on fifth day from Centre County. They was gone two weeks and longer than expected, owing to the child getting sick. Next morn I had a violent headache, and verry unwell. I forced a little breakfast. I had not eat a meal since six oclock the morning before in Phila. I had no appetite. Perry took Martha Thomas to meeting. I sleped till noon, then I felt better and was able to walk out. I went up to the hill. Little Ezra came up to me awhile and when we was coming home, he told me his throat was sore. Then he came to the house and eat then laid down and seem to mope, and about dark began to vomit and continud by spells till near midnight. Next day he was in a high fever. Broke out with the rash. His Father tried the Thompsonian system of steaming and hot teas, but unavailing. He had a fit, but not hard. It alarmed us verry much, and after noon sent for Doctor Robbins, and he attended him five days an tried many things. He still grew worse and exceedingly no appetite. his throat was verry sore and swelld. He was sensible most of the time. He suffered verry much and got he could not speak, or sixth day night, and was verry restless. I was up with him till three oclock, and Asa and Elidas wife. On seventh day morning, between five and six, we were calld, and in ten minutes his spirit had taken its flight. He gently passed away, and ceased to breathe. Oh, our feeling. What a trial it was to be bereft of that dear favorite. We saw he was verry bad, but still hopd he might be spard, so we were in hopes amid fears. Oh, how he is mised. So often do we think of him. that was such company and so active and lively. But we must be resignd to the Almightys will and saw the Lord is righteous still. O first day morning, our friends and neighbours met at eight oclock. Rebecca suplicated, as we were sitting with the corpse. Oh, what a solmn thing it is to take our last look at a dear departed, to see their eyes closed forever and lips sealed and body motionless that so lately could look, speak, and move. Oh, awful death, thou canst lay low the great and small, the rich and poor, young and old. All must yield to the, and may we all keep in mind the importance of being prepared. Our little Ezra was the first to be laid ii the friends new grave yard in Shamokin. Quite a number was present, and Reuben and Rebecca preached verry nice on the solmn occasion. Meeting was after the interment at the usual hour, and after we came home, oh how lonesome we were that afternoon, nobody here. When. I would go to bed I would think of him and the first of my thoughts in the morn would be of him. We took dinner at Able Dalbys and was Ferried across the river at Mifflinsburge and came by the Cattawissa Iron works and saw a railroad bridge 83 feet high. We passd under it. We crossd the Catawissa mountain and staid all night at Samuels Ecks. Next morning came by Slabtown home. 16th, Verry unwell with the sick head ache and preparing to start to the State of N. York. 17th, Evan Yarnall and I started about noon and went to Griffith Davises and staid two hours. I was quite unwell. They were verry kind. About five we started for Fishing Creek and got to Jacob Kesters just after dark. I felt bad in my head. Took a dish of tea and went to bed. Next morn, we went to see Hannah John a little while and Aarons. Then we went to Meeting. Mary S. Clemments supplicatd, then dined at Doctor P. Johns and spent part of the afternoon with them and then to John P. Kesters and had a pleasant time there. Esther Evans was there, in the evening. Next morning early we started and went through Rhorsburg and them all new new to me. About six or seven miles from there we came to Benton, a little town on a low ground, near a Creek, and next we pased Coles Mills and some wild looking country. We fed at G. Gaisers at the foot of the Allegany Mountain. There was a verry sociable Landlady and handsome daughter about sixteen. The mother was small and homely. Then we started up the great Mountain, and the roughest road that I ever saw -- rocks and stones. We stopd to rest and eat a bite in the shade where there was great shelving rocks over the road. Many names were written there by travelers, two miles to Watsons for 12 or 14 miles, only 3 houses the long Pond and Ellises besides Watsons. Many places the limbs of trees reachd clear across the road. Some places the road sandy. A number of red Rasberries we saw and regaled ourselves on while the horse eat leaves. Near Ellises, we crososd the Laurellock and then up on another mountain. Some verry wild country, and barren. We traveld for or five miles to Cherry or Dushore, a little town. We staid all night. there. Paid 12-1/2 for a bed and started before breakfast. Passd a Catholic meeting house, and through an Irish settlement. We passd Wilcoxes, Monrocton, and to Towanda against ten oclock. 19 miles form Dushore. We fed there. It is a flourishing place. A court house and Jail. I did not feel well. Tried to sleep a little in the tavern. Then next we passd Ulster and Tioge Point at Athens, and next Factoryville, and fed, and then along Shepherds Creek and through Vanettsville to Spencer, 35 miles from Towanda. We traveld 54 miles this day. 12-1/2 for a bed again, then passd Ithica. I forget the distance from Spencer. We traveld 7 miles on plank road, and fed at Jacksonville, 26 miles from Spencer. Got there against 11 oclock. Eleven oclock was at Thorps tavern. Verry beautiful country, splendid buildings, ornamenttd house . Barns and wagoon houses paintd with great taste, white ocre, straw colourd, slate chockalet, and verry nic towns, splendid buildings, some houses built in Gothic styec. We passd through Treumansburg. I guess it is in Tomkins county, and Farmersville, hardsome towns, and some villages that I did not hear their names. The mare nearly give out, but we got to Lemuels about three oclock, and took tea and restd a while. Lemuel lives in a large white house on a beautiful farm in sight to the lake. He has a fine wife. Amos was there and he took me in the carriage to his house. We got there before sunset and found them pretty well. Lydia was glad to see me. her daughter Sally Ann came out to recieve me. We got there the 21st. 25th, Sally Ann took to to Lemuels and a riding around to see the country. 28. Lemuel and wife and child here, and Abby Dickerson. Some people stopd here for shelter from Bierytown, John Tunison, a preacher and wife and three children. He had one of his arms taken off by a thrashing, machine. They were well dresed and seemd like nice people. A barn was burnd the 5th by lightning, near Farmersville. Had once belongd to John Kelly. 8th, Amos took me to see his Aunt Betsey Swick, near Farmersville. I did not feel well there till after dinner. Saw some of her children and grand children. They were verry kind. Saw a young man there named James Venauburge, a club footd fellow, and saw Sylvester and Hannah Buckaw. There was some thunder showers, but we secapd them till we got home. 9th, showery. 10th, Evans birthday. We had some fun. 12th,

Sally Ann, Betsey Jane Dunlap, and myself went to Doctor Charles Cohns. His father is crazy and very troublesome. He was laying on a bed on the floor, but was helped on a chair. When we went there he would talk to himself. The wife and two sons is much respectd. (Since I came home I heard of his death.) From Cohns we went to the Conga lake from one to four miles wide and 38 long. It is a very beautiful water. I enjoyed the sight very much and hunting curious stones. I washed my face and hands in it. We walked along the lake a ways. We could see houses on the other side plainly. We took up a hollow to hunt blackberries. We saw people getting berries but did not go to them. We went over a hill called the Hogs back, a great curiosity, high and narrow. We started up the rump, as appeared to be, just a path along the back bone and a hollow way down on each side. There appeared to be two such hills near together. After walking some distance the ridge flattened down to a level, then we found black berries near a steam saw mill, and mountain raspberries and white berries, like black berries and got home at dusk. Had a long walk, and very tired, and did not find many. Lydia was pleased with that we brought. 14th and 13th, I received a letter from Martha Ann John, giving accounts from home. I was truly glad and it likewise give account of Zechariah Underwoods death, a fine old man. 14th, Amos took me to Lemuels, I enjoyed myself well. 15th, Engaged in reading a Summers Journey in the West by Mrs. Steele. It was very interesting. She give very particular accounts of things that she saw and heard. On First day towards evening, Lemuels wife, Sally Ann and her babe, Amanda, and myself took a ride to Sheldrake Point, There her Father, John Bleu lives. They have 9 daughters and 7 sons living. They have a fair view of the lake there. It is near by there. We was cold coming back, the wind so cold. 17th, Lems wife brought me back to Amoses. Lydia is poorly. They are busy at their hay. 20th, I am not well. Lydia nor Sally Ann either. Evan took me to Ovid. Was in Bailys store. Saw the Court house and Academy and Presbyterian Church where Bernam Dunlap preaches, a single man, brother to Betsey Jane. We came home by Hoyts Corner. I laid down when we came back a while, then felt better after tea. 21, Still not well. 22nd, looking over old letters upstairs, and saw several that I had sent, and was packing up my things and preparing for starting home. Evan, Sally and me took ride towards evening. When we returned Hannah Church was here and said her sister would come in one week, so I must wait one week longer for Sally Ann. She had give up going home with me, because they thought the girl would not come, as she had promised, and Lydia was more poorly, and now there is preparations for Sally to go to Pennsylvania. 24, Several days warm and dry. 27th, A good shower. 28th, Alby Dickerson called to see us. 29, I was sick and kept my bed till near two o'clock, then eat something and felt better. Rachel Dickerson and Charlies girls, Mary and Louisa, called to see us and Lemuel and wife came toward evening, then went away just before Rhoda Church came. She is to here till Sallie returns. I went to bed early. 30th, a fine morning and in good spirits, preparing for our journey. We expect to start a little after noon. May the good being be with us all and guide us aright and protect us from danger. We left Amos Yarnalls a little after one. Amos brought us to Baily town, or Ovid Landing, six miles from Yarnalls, and we had to wait two hours for the Steam Boat, Bealoder, which arrived about four. Then we were off in short order on the Seneca lake, a splendid boat, and a number of Passengers. Stephen Brown and wife, acquaintances of Amos Yarnalls, took passage with us and traveled to Elmira together on their way to New York and Jersey. We each paid 87-1/2 cents to Elmira. We got to Jefferson about sunset and then took cars 22 miles in about an hour. Elmira and all was hurry and bustle. We was taken in an omnibus to Heights [or Hughts} Hotel and staid the night. We felt very little there. A great and splendid Hotel. I never saw so many rooms. High charge, 25 cents for a bed. 50 for us both in one bed. In the morning we paid our fare to Williamsport, three dollars and a half each for 75 miles from Elmira. Between Jefferson and Elmira we passed Havanna and Millport and the Horseheads, if I am not mistaken in the names. In the morning we took stage about eight o'clock. There was nine inside and some outside. We had interesting company. Thomas Wilson and lady, young people. He has been two years and a half at California, and just lately returned to take his wife there. They lived at Covington, in Tioga County. He showed us a piece of gold worth one hundred and sixty dollars in a lump as he had found it. He has a brother there that farms. Can cut 43 tons of Hay get 75 dollars a ton. Flour had been there 300 dollars a barrel, butter was last winter on dollar a pound. There is but three kinds of Timber there, redwood and I have forgotten the others. We passed some rough and wild country and fed and dined at Troy. Paid 37-1/2 for dinner. Monstrous high. Wilsons left us here. One of our Passengers was an Irish lady from New York, a Jolly woman, and Samuel and Harriet Eaton

from the State of Maine, a young married folks. Was coming to Williamsport. He seemd to be engagd in the lumbering business. He had been through there before, and along the Susquehanna, but she never saw such wilds before. She was verry lively. Him and her frequently sung as we rode along. I got sick and vomitd. We got to Rallston after dark, and each paid six pence for a bed. About 4 in the morning we loaded in a horse car drawn by two horses and took breakfast at Trout run. I supose we crossd the Laurelsock, and I believe we crossd Lycoming Creek several times. A great many saw mills. About ten oclock reached Williamsport, 26 miles from Ralston. We was taken to the United States Hotel. It was court time, and a great throng of boarders. It is a beautiful place here. We paid our fare, one dollar and 75 cents to David Davises. We passd Montuersville, Pennsbourough, or Muncy, a beautiful country, Turbutville and Washington. When we left Williamsport, there was Sarah Anna, myself, and Sarah Leeseey and Irish girl that had traveld with us since morning, a nice sensible girl, and a man from the east that wantd to talk too much on Religion. Rather a restless and inquisative man, that made him appear disagreeable. I refused to talk with him at last. I thought he wantd to appear more Religeous than he was. After some miles there was another man got in that had been drinking, by the name of Danl Leeland, from Hughesburg. He had talk enough for our stranger. He askd him questions that he could not answer, and was glad to be quiet. We saw the place where the Counterfelt Haases (sic) livd, a pretty place, and verry pretty country from Williamsport to Washington. It was dark when we was at the last named place, near nine oclock. The stopd at the Temperance house, at D. Davises. I was sick before we got there. The passengers seemd to regret us leaving them. They had four miles further to Danville. David and Sally was gone to bed, but we were kindly recieved by Rebecca Ann Blue, Nathaniel Bennett and Clarrissa Johnson, all cousins to us. They soon got a dish of tea, but I was sick and could not eat much. We soon went to bed. I could not sleep good. I was taken with the Cholera Morbus. Next morn I felt verry miserable. I was thankful that I had left the stage and was among my relations. After breakfast David took us to Griffith Davises in his carriage. I was verry sick there and laid down most of the time while there. They were all kind to us. After dinner I was some better and young David brought us home to my sweet home, after dark. All glad to see us, and we glad to get here. Everything lookd nice and pleasant. I was not well for two or three days.

Both of the Doctors looked at it and gave me no medicine, then we went to Sunbury to Packers and was kindly entertained by Rachel and her children. There was a great Union Meeting in Sunbury, the like I never saw before. We were late getting home. Judge Kelly from Philadelphia, and Judge Adams, from Kentucky, and General Coffee spoke. I felt sad that day. Brother Jehu died that day, aged 53 years; 8 month. We did not hear of it for three weeks after. He was next older than myself. A verry kindhearted man.

(OCTOBER, 1863)

10th mo. 3rd, Willie took me to Dr. J. Rakers, We waited 4 hours but did not see them, the Doctors. We got our dinners. The Doctor appointed for me to come in ten days, but took the day before for the 10th day. 5th, We went again and saw Henry Morris, the young doctor. We came back to Samuel Kellys for dinner. I had sharp stiches in my breast. Next day, the 15th, Griffith took me to Doctor Rakers...found the old Doctor, but he was a good deal discouraged, and so was I. 26th, Elida took me, being the 5th time that I was at Rakers. A verry cold, frosty morning. I started without my breakfast at 5 oclock, and got to the Doctors 20 minutes of nine. We soon came home. I wanted to settle with the Dr., but Elida wanted him to try something stronger 10 or 15 days longer. But my mind was to quit

there, for he did not seem to do much good, and wanted to amputate. He had gave me 3 phials of drops to take inwardly, and three boxes of salve, or 2 of Iodine, and she gave me a small box of healing salve, and the last time he gave me something to bathe my breast to make it sore. (NOVEMBER, 1863)

11th month 1st, Samuel and wife, Kerseys here. 3rd & 4th, Wrote to Lydia Longstreth, the 2nd letter. Rebecca and I wrote to her 2 weeks before and got an answer. Sarah is verry bad for several days with the Phthisick. 8th, she is still poorly. 5th, I commenced using a poltice of carrot and slippery Elm, recommended by Doctor J.W. Moore to Perry at Baltimore. I have had great deal of trouble to know what is best to do. Sometimes I want to go to Dr. Thayer at Montrose, and sometimes I conclude to go to Doctor Pancoast in the City, and then the monstrous expense and many other things discourages me, and all seemed dark, and then sometimes I felt like going there, and expected to go the 15 or 17, that is, tomorrow or next day. But hearing of the uncertainty of an operation, or using a knife for cancers, sickens me. Perry came home the 19th, Rebecca and Asa went to Berwick. Perry met them. M.E. Hughes has a daughter. 15th, I staid at home today, not being well. I have been more ailing this week. 23rd. I am verry sore and aching in my breast and bowels, and weakness. I had my mind made up to go to Montrose. 24, Recieved a letter from T.B. Longstreth inviting me to come there to be Doctored by Dr. Noble and Doctor Ashmeas, which has given me trouble.
